This application is the U.S. national phase of PCT Application No. PCT/EP2003/014454, filed December 18, 2003, corresponding to German Application 10261804.6, filed December 19, 2002. Reference WO 02/40564 identified in Form PTO/SB/08a was cited in an International Search Report (ISR), dated May 7, 2004, and an International Preliminary Report on Patentability (IPRP), dated October 26, 2004, in the underlying PCT Application. The July 6, 2006, Notice of Acceptance of Application Under 35 U.S.C. 371 and 37 CFR 1.495 indicates that a copy of the ISR in the underlying PCT Application has already been received by the United States Patent and Trademark Office. Therefore, no copy of the ISR is provided herewith. Since the same Notice of Acceptance of Application does not indicate that a copy of the IPRP has been received by the United States Patent and Trademark Office, a copy is provided herewith.

German Patent No. 25 16 349, U.S. Patent No. 4,425,466, and Belgian Patent No. 623,888 are discussed in the Applicants' specification on page 1. A copy of the German Office Action dated August 19, 2003 and the foreign patents cited therein are provided herewith.

Pursuant to 37 C.F.R. § 1.97(b)(3), no fee is believed to be due for the filing of this Information Disclosure Statement as it is being submitted before a first Office Action on the merits. Nevertheless, the Commissioner for Patents is hereby authorized to charge any additional fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
